

## A tradition that lives on.

The purpose of PSRS/PEERS remains constant: to provide our members and their families with a reliable and stable source of retirement income, disability and survivor benefits.

We look forward to continuing the tradition of providing reliable retirement benefits to Missouri's dedicated public school teachers and employees for the next 70 years, and beyond.

Since  
1946

## Statistical Summary

### Benefit Recipients

The largest percentage of the Systems' benefit recipients are service retirees. Service retirement benefits are payable to members who have met age and service requirements. The number of PSRS service retirees on the payment rolls increased by 1,724 from 51,345 at June 30, 2015 to 53,069 at June 30, 2016. The number of PEERS service retirees on the payment rolls increased by 1,161 from 23,900 at June 30, 2015 to 25,061 at June 30, 2016.

Disability benefits in PSRS and PEERS are paid to members who are unable to earn a livelihood due to permanent disability and who have met certain eligibility requirements. The number of PSRS disability retirees on the payment rolls increased by 65 from 892 at June 30, 2015 to 957 at June 30, 2016. The number of PEERS disability retirees on the payment rolls increased by 15 from 767 at June 30, 2015 to 782 at June 30, 2016.

In both PSRS and PEERS, beneficiary payments are available to survivors if the retiree elected this option. Three Joint-and-Survivor benefit plans and two Term-Certain benefit plans are available. In PSRS, survivor benefits are also available to designated beneficiaries of members who die before retirement.

The charts on page 120 detail the number of benefit recipients by type and monthly benefit amount for each System.

### Pension Funding

An unfunded actuarial accrued liability (UAAL) for pension benefits generally represents the difference between the present value of all benefits estimated to be payable to plan members as a result of their age, salary, and service through the valuation date and the actuarial value of plan assets available to pay those benefits. This amount changes over time as a result of changes in accrued benefits, pay levels, rates of return on investments, changes in actuarial assumptions, and changes in the demographics of the employee base. Each year an outside actuary performs a valuation to determine the present value of the benefits payable (actuarial accrued liability) and compares this to the assets available to arrive at the funded status of the Systems.

The charts on page 128 show a comparison of the assets and liabilities of the Systems over time. At June 30, 2016, PSRS was 84.8% pre-funded and PEERS was 86.4% pre-funded. At June 30, 2015, PSRS was 83.9% pre-funded and PEERS was 86.8% pre-funded.

### Changes in Fiduciary Net Position

The charts on page 121 detail a 10-year history of the additions (revenue) and deductions (expenses) of the Systems.

Other charts in this section detail demographic information concerning our members and employers.

The data in this section was derived from internal sources and the annual actuarial valuation reports.
