January 1, 2018 COLA Set at 1.63%; 2018-2019 School Year Contribution Rates Unchanged

PSRS/PEERS Investments Return 12.5% for Fiscal Year 2017; Off to a Solid Start for Fiscal Year 2018
January 1, 2018 COLA Set at 1.63%; 2018-2019 School Year Contribution Rates Unchanged

To meet the Systems’ ongoing goals, the Board took action on the Systems’ COLA policy, 2018-2019 contribution rates, and assumed rate of investment return.

January 2018 COLA Set at 1.63%, New COLA Policy Going Forward

January 1, 2018 COLA Set

The Board voted to grant eligible PSRS and PEERS benefit recipients a 1.63% cost-of-living adjustment (COLA) effective January 1, 2018.

The COLA decision is based in part on the Consumer Price Index for Urban Consumers (CPI-U) as determined by the U.S. Bureau of Labor Statistics for the previous fiscal year. The increase in the CPI-U for PSRS/PEERS’ fiscal year 2017 is 1.63%.

Other factors in the decision included the analysis and recommendation of the Systems’ actuary, and requirements set in Missouri law regarding the setting of the COLA by the Board of Trustees.

New COLA Policy Adopted Effective with January 1, 2019 COLA

In addition to setting the COLA for the upcoming year, the Board reviewed seven different scenarios with data provided by the Systems’ actuary, PricewaterhouseCoopers (PwC) to determine a longer-term COLA policy that best fits with the Systems’ funding goals.

After the analysis and discussion, the Board set a new COLA policy that will become effective with the January 2019 COLA. The policy contains a cumulative CPI calculation when the CPI-U falls between 0% and 2%.

The policy provides that:

- If the CPI-U is less than 0% (negative), no COLA will be given.
- If the CPI-U is 0% to 2%, and cumulatively below 2%, no COLA will be given.
- If the CPI-U is 0% to 2% and cumulatively 2% or more, a 2% COLA will be given.
- If the CPI-U is between 2% and 5%, a 2% COLA will be given.
- If the CPI-U is more than 5%, a 5% COLA will be given.

PSRS/PEERS Investments Return 12.5% for Fiscal Year 2017; Off to a Solid Start for Fiscal Year 2018

PSRS and PEERS earned an investment return of 12.5% for the fiscal year ended June 30, 2017. The total plan return exceeded both the policy benchmark of 11% and the long-term objective (actuarial assumption) of 7.75%.

Over long periods of time, the Systems continue to produce investment returns that meet or exceed the System’s objective. The annualized investment return for PSRS and PEERS over the last five years is 9.5%, and 8.4% over the last 30 years.

PSRS and PEERS maintain a diversified asset allocation of stocks, bonds, real estate, hedge assets and private equity. In the last year, the best performing asset classes for the Systems were non-U.S. equity with a return of 20.4% and private equity, which produced a return of 20.1%.

As we move through the first four months of fiscal year 2018, stock markets throughout the world continue to reach new highs. The Systems have benefited from the strong markets and the estimated investment return for PSRS and PEERS for the first four months of fiscal year 2018 (July 1, 2017 through October 31, 2017) is approximately 4.5%.

However, we remain mindful of the fact that most asset classes (specifically global stock markets) are fully valued, and that volatility in all investment markets is beginning to increase. As a result, we will continue to manage the PSRS and PEERS assets with a focus on return, but also with a keen awareness of the embedded risks.

The market value of invested assets for PSRS and PEERS combined were approximately $42.8 billion on October 31, 2017, making the joint entity larger than all other public retirement plans in Missouri combined, and the 43rd largest defined benefit plan in the United States. Legislative Changes May Impact Some PSRS Retirees

Legislative changes affecting some retired PSRS members went into effect August 28, 2017. Changes include:
- the addition of a possible Joint-and-Survivor or Term-Certain benefit pop-up upon divorce, a longer window to change a Joint-and-Survivor beneficiary after a remarriage, and an expansion of the types of work after retirement that are subject to hourly and salary limits.

PSRS: The Missouri Model

The “Missouri Model” is a term used in the retirement industry to describe the PSRS trust fund’s operational model as the one other retirement systems aspire to emulate.

PSRS has been, and continues to be, financially stable while providing lifetime retirement security to current and future members. PSRS has provided this financial stability to Missouri educators since 1946, based on sound governance decisions, and will continue to do so for future educators.

The map below provides a comparison of the funded status of all 15 state teacher retirement systems whose members do not contribute to Social Security. A retirement system’s funded status is an indication of the financial health of a system, as it shows the percentage of promised benefits it could fund at the current time. A funded status of 80% or higher is regarded by the industry as healthy.
