

Rockwood R-VI School District

Location: St. Louis (metro), MO (district office in Eureka)
Enrollment: 22,507
PSRS member/employees: 1,912
PEERS member/employees: 1,224
Superintendent: Dr. Bruce Borchers
County: St. Louis

Planning to Stay Safe

It is a given that schools today have plans for dealing with crisis or natural disaster. Thankfully, most have not had to put those plans into action.

Among those is the Rockwood School District, located in the St. Louis metro area. The third largest school district in Missouri, Rockwood serves more than 22,000 students and covers roughly 150 square miles. Their mission – “We do whatever it takes to ensure all students realize their potential” – is evident. The district includes 10 National Blue Ribbon Schools, 14 Missouri Gold Star Schools of Excellence, ranks among the top on Missouri Assessment Program (MAP) tests, and among the top in both state and national ACT scores.

But their “whatever it takes” attitude goes beyond academics. It is also evident in the district’s strong commitment and high level of achievement in crisis planning and emergency preparedness to ensure the safety of students and staff.

The district and all school facilities have emergency preparedness, crisis and safety plans designed with the assistance of staff, local law enforcement, emergency management and public health officials. Plans are regularly reviewed, updated and practiced through drills. Workshops are held every two years to allow parents, emergency officials and district administrators to discuss crisis preparedness, prevention and response.

The strength of Rockwood’s commitment to both academics and emergency preparedness goes a long way to achieving its goal of ensuring students have every opportunity to realize their potential.

STATISTICAL SUMMARY

Benefit Recipients

The largest percentage of the Systems' benefit recipients are service retirees. Service retirement benefits are payable to members who have met age and service requirements. The number of PSRS service retirees on the payment rolls increased by 2,124 from 43,718 at June 30, 2011 to 45,842 at June 30, 2012. The number of PEERS service retirees on the payment rolls increased by 1,100 from 19,354 at June 30, 2011 to 20,454 at June 30, 2012. An additional 53 PSRS service retirees and 83 PEERS service retirees had their benefit on hold at June 30, 2012.

Disability benefits in PSRS and PEERS are paid to members who are unable to earn a livelihood due to permanent disability and who have met certain eligibility requirements. The number of PSRS disability retirees on the payment rolls increased by 40 from 761 at June 30, 2011 to 801 at June 30, 2012. An additional two disability retirees had their benefit on hold. The number of PEERS disability retirees on the payment rolls increased by 48 from 617 at June 30, 2011 to 665 at June 30, 2012. An additional three disability retirees had their benefit on hold.

In both PSRS and PEERS, beneficiary payments are available to survivors if the retiree elected this option. Three Joint-and-Survivor benefit plans and two Term-Certain benefit plans are available. In PSRS, survivor benefits are also available to designated beneficiaries of members who die before retirement.

The charts on page 108 detail the number of benefit recipients by type and monthly benefit amount for each System.

Pension Funding

An unfunded actuarial accrued liability (UAAL) for pension benefits generally represents the difference between the present value of all benefits estimated to be payable to plan members as a result of their age, salary, and service through the valuation date and the actuarial value of plan assets available to pay those benefits. This amount changes over time as a result of changes in accrued benefits, pay levels, rates of return on investments, changes in actuarial assumptions, and changes in the demographics of the employee base. Each year an outside actuary performs a valuation to determine the present value of the benefits payable (actuarial accrued liability) and compares this to the assets available to arrive at the funded status of the Systems.

The charts on page 116 show a comparison of the assets and liabilities of the Systems over time. At June 30, 2012, PSRS was 81.5% pre-funded and PEERS was 82.5% pre-funded. These percentages have decreased from the June 30, 2011 pre-funded percentages of 85.5% for PSRS and 85.3% for PEERS.

Changes in Net Assets

The charts on page 109 detail a 10-year history of the additions (revenue) and deductions (expenses) of the Systems.

Other charts in this section detail demographic information concerning our members and employers.

The data in this section was derived from internal sources and the annual actuarial valuation reports.
