

The Future Starts Now.

At PSRS/PEERS, we understand the passion our educators and schools have for providing the best for their students and families. We have a similar outlook when it comes to providing financial security for our members. We work to ensure they have access to the best possible financial future by providing lifetime retirement benefits and financial security in retirement. Together, our efforts have a positive impact on many lives. While they provide education for today, we provide retirement for tomorrow.

Statistical Summary

Benefit Recipients

The largest percentage of the Systems' benefit recipients are service retirees. Service retirement benefits are payable to members who have met age and service requirements. The number of PSRS service retirees on the payment rolls increased by 1,301 from 54,629 at June 30, 2017 to 55,930 at June 30, 2018. The number of PEERS service retirees on the payment rolls increased by 1,240 from 26,335 at June 30, 2017 to 27,575 at June 30, 2018.

Disability benefits in PSRS and PEERS are paid to members who are unable to earn a livelihood due to permanent disability and who have met certain eligibility requirements. The number of PSRS disability retirees on the payment rolls increased by ten from 981 at June 30, 2017 to 991 at June 30, 2018. The number of PEERS disability retirees on the payment rolls increased by nine from 804 at June 30, 2017 to 813 at June 30, 2018.

In both PSRS and PEERS, beneficiary payments are available to survivors if the retiree elected this option. Three Joint-and-Survivor benefit plans and two Term-Certain benefit plans are available. In PSRS, survivor benefits are also available to designated beneficiaries of members who die before retirement.

The charts on page 124 detail the number of benefit recipients by type and monthly benefit amount for each System.

Pension Funding

An unfunded actuarial accrued liability (UAAL) for pension benefits generally represents the difference between the present value of all benefits estimated to be payable to plan members as a result of their age, salary, and service through the valuation date and the

actuarial value of plan assets available to pay those benefits. This amount changes over time as a result of changes in accrued benefits, pay levels, rates of return on investments, changes in actuarial assumptions, and changes in the demographics of the employee base. Each year an outside actuary performs a valuation to determine the present value of the benefits payable (actuarial accrued liability) and compares this to the assets available to arrive at the funded status of the Systems.

The charts on page 132 show a comparison of the assets and liabilities of the Systems over time. At June 30, 2018, PSRS was 84.0% pre-funded and PEERS was 86.1% pre-funded. At June 30, 2017, PSRS was 84.0% pre-funded and PEERS was 85.8% pre-funded. The pre-funded status remained consistent with the prior year as a result of a reduction in the assumed rate of return as of June 30, 2018. Detailed information on actuarial assumptions, can be found in the Actuarial Section of this report.

Changes in Net Assets

The charts on page 125 detail a 10-year history of the additions (revenue) and deductions (expenses) of the Systems.

Other charts in this section detail demographic information concerning our members and employers.

The data in this section was derived from internal sources and the annual actuarial valuation reports.

PSRS Summary of Benefit Recipients By Type As of June 30, 2018

Amount of Monthly Benefit	Service Retirement	Disability Retirement	Beneficiary Recipients				Total
