

## **PURCHASE OF PUBLIC SCHOOL EMPLOYMENT AT SCHOOLS NOT COVERED BY PSRS**

### **Q. How is the cost to purchase service for public school employment calculated?**

- A. The cost of public school service is calculated by multiplying your highest PSRS salary by the current contribution rate and the years of service you wish to purchase.

The cost of any remaining service for which you have applied but not yet paid is recalculated each October 1 using your highest PSRS salary and the current contribution rate.

### **Q. Am I eligible to purchase public school service not covered by PSRS?**

- A. Yes, if:
- You were employed at least 20 hours per week on a regular basis in a non-PSRS-covered public school or any public two- or four-year college or university.
  - You have at least one year of PSRS service.
  - You returned to PSRS-covered employment after your public school service.
  - You do not have service with any other retirement system for the employment (except Social Security).
  - You have not received an actuarial value cash-out in lieu of a monthly benefit.

### **Q. Will the purchase of public school service count toward vesting my PSRS membership?**

- A. Yes.

### **Q. How much public school service can I purchase?**

- A. You can purchase any or all service with a public school, provided you have earned equivalent service for PSRS-covered employment at the time of your retirement.

If service was established with a retirement system, you may purchase the service on a year-for-year basis provided you have forfeited the service with that retirement system, except by actuarial value cash-out, and you are not eligible for benefits because of the service. Additionally, you cannot have service established with PSRS for the same time period.

If no service is established with another retirement system for the service, the purchase allowed is based on the hours served in the position.

You can purchase service in increments as small as one, one hundred thousandth (0.00001) of a year. Multiple applications are allowed. In most cases, the total of all service purchased with PSRS cannot exceed the total service you have earned at termination of membership by retirement, death, refund or absence from covered employment if not vested.

### **Q. How can I pay for public school service?**

- A. You can pay by personal check, cashier's check or money order made payable to *PSRS of Missouri*. You may also pay using an eligible rollover distribution or in-service trustee-to-trustee transfer. Please see the *Rollover/Transfer Certification Information Sheet* for details. You cannot pay through payroll deduction.

Purchase funds and service will be applied to your membership upon receipt of payment. Payments for purchases of service will not be refunded. If you make partial payment and your membership ends, you will be granted proportional service.

### **Q. What is my payment deadline?**

- A. Payment for service must be received prior to your PSRS retirement date in order for it to be included in the calculation of your retirement benefit. The purchase application remains open until it is paid in full or your membership ends due to retirement, death, refund or absence from covered employment if not vested.
